

FIGURE 6-G

Foreign content share of gross exports of the computer, electronic, and optical equipment industry, by selected region, country, or economy: 2015

EU = European Union.

Note(s)

Foreign content is the value of imported intermediate goods and services from other countries that are embodied in gross exports. U.S. exports do not include exports to Canada and Mexico. The EU includes 28 current member countries. EU exports do not include exports among individual EU member countries. China includes Hong Kong. China's exports do not include exports between mainland China and Hong Kong.
